Peerless Cooking Stove.

HEAR what the Boston Journal says of this superior article:

Among the peculiar merits claimed for this stove is the complete ventilation and even temperature of the oven, making it a roasting rather than a baking oven, which is secured by a peculiarly constructed air-chamber, which heats the air as it passes down behind the fire pot and into the oven, causing the meats to bake or roast perfectly and evenly, a great desideratum with a careful housewife; the perfect control which can be kept over the fire, and its cleanliness. This stove works equally well with coal or wood. These stoves are of different sizes, and are made plain or with an extension top, the latter being made with a large reservoir for hot water on the top and a warming closet underneath. Those of our readers who would like to keep up with the times would do well to call and see and test this "Peerless stove." Sole agent in Newport,

How We Lost Our Minister.

Concluded.

It was not this last circumstance, for Parson Flush never waited, but the first which interfered with our good friend's comfort. The fun being full, its hostess sent for respects to Mr. Flush, and would he afford her the temporary loan of a spare room in his house for a widow and her daughter who had written for apartments the day before, and were coming on that evening in the expectation of finding them? To refuse to perform a kindness never entered into the good fellow's feeding heart, but this request vexed him mightily. The information that the ladies were of a scrupulous character, and travelled with two riding horses, as well as their own carriage, effectually clinched the matter. If they had been peddlers, and were about to appear in a walking-gown of hardboxes, they would have alarmed him quite as much. He was not sure if it would not be indelicate in him to put his boots outside the door at night, and he gave orders that his knee should be removed—half dry—from the line in the back-garden. It would be a relief to him, he said, if I would reside in the house during the stay of the two visitors; and, at all events, I must dine with him the first evening, which I agreed to do. The curate's dinners were rather neat; his housekeeper—who perfectly understood him, and was not altogether without hope, I think, of luring him down from respect to matrimony—had a way of smoothing duck with lemon, which, before I feasted at the Dovecot, I had met with only in books. I therefore judiciously rode out a few miles in the afternoon in search of an appetite. There was a good one to be got generally on the Brindle road by the sea coast, which cuts through the sheep and cattle pastures, and I choose that way. It is much intersected with small white gates which mark the boundaries of the fields, and one of these it puzzled me a good deal to open. The day was hot and my horse was fidgety, so that I knew better than to get off and risk not getting on again; but I could not undo the spring bolt any how. While I was wheeling and reaching, and changing from a red to a white heat, and had got from "dear me" and "bothration!" to "confound the thing!" I was startled by a rather shrillish voice from the other side of the gate, and up came a lady upon a showy bay at a hard gallop, with a "By your leave, sir, for a moment!"—and the showy bay and his fearless bonneted dashed over the five barred together, like a mischievous girl just shaving my head, as I should think, by about a quarter of an inch. Secondly, came a groom with another bay; and, thirdly, a huge mastiff dog (who made a snap at me in the air) with another bay; and in a moment I was left alone in a cloud of dust.

I took the remainder of my ride in peace, and having accomplished my object returned to Barnley. My appetite was of that nicety that five minutes clearer way would have deteriorated it materially; but, I well knew that Mrs. Solfstairs was punctual to the instant. As I took her well known staircase I felt as confident of all things being well, as a human being can feel. The odor of the stuffing seemed to salute my nostrils. I had decided on a wing and a slice of the breast. Alas! the cloth was not even laid upon the dining table, but there was a little folded note addressed to me instead:

"Dear Friend,—Adieu forever. By the time you read this I shall be far away. It seems like a fatality; but while I have life I will resist it. It is in the house. It and her mother—and the aforesaid—"

A low growl here arrested my attention. The mastiff dog was at the door which had snapped at me in the afternoon without effect. He said, as plainly as he could speak, that he was determined to make up for his disappointment on the present occasion. I was resolving to sell my life dearly, when the rather shrillish voice again came up the stairs, and at the window, and down the chimney, as it seemed to me, at once: "Tow, Tow, Tow, "Tow, Tow! Good little dog! Come to La La!" The creature obeyed. I suppose there was some other dinner awaiting him below, and I stole softly away in safety.

Never again did I visit that snug parlor. Never again was Peony Flush beheld by the Barnley eye. I recognized him, I think, however, in the naval intelligence column of the Times newspaper, as the Reverend P. Flush, appointed chaplain to the ship Virgo, bound for Hong Kong; where mastiff pups are fricasseed and stewed and baked in pies before they attain maturity.

TAXING SAVINGS BANKS.

In the General Assembly, yesterday, the subject of taxing the deposites in Savings Banks was under discussion. This is an important question, as the imposition of an equitable tax upon these deposites will add $17,000,000 to the taxable property of the State and will have a tendency to reduce the rate of interest, or, at least, set free a large amount of capital which is now kept in Savings Banks for the sole purpose of evading taxation. The entire industry and business of the State is seriously affected by the existing law, which exempts from taxation a sum only two millions less than the whole amount of taxable property assessed in the city of Newport; while the deposites pay high interest and large dividends, besides, in many instances, retaining a large undivided surplus.

Literary Notices.

THE NEW MUHLBACH NOVEL.—Appleton & Co., submit to the public approval another Muhlbach novel. The subject "The Empress Josephine," is one with which the author necessarily became familiar in the course of explorations for her previous romances, in which Napoleon and Josephine have played parts. None but a woman would have dreamed of making the empress the pivotal figure of the book, that place being commonly monopolized in Napoleonic literature by the great son of Corsica. It remained for Miss Muhlbach to claim for this unhappy representative of her sex the position of the sovereign of Napoleon's heart, and virtually the arbiter of his destinies. The chain of events of which Josephine is the fated victim is one of the most wonderful to be found in the treasure-house of history; and no one but a writer of ample brain and heart could make it the material of a story, without belittling the theme. Miss Muhlbach is fairly equal to the great task. She details the conversations of imperial people as smoothly as if she had been born to a palace. Mr. Gaston Fay's beautiful illustrations form a most agreeable accompaniment to the text.

The Lady's Friend, for February, has a beautiful steel engraving, representing the hiding of Moses in the bulrushes. The double Steel Fashion Plate refined and elegant as usual, St. Valentine's day, and a fine engraving of The Meteoric Shower at Sea follow. The engravings of the Fashions, Patterns, Fancy Work, &c., are numerous and excellent. The music is the popular song, Pardle Your own Canoe. The literary matter is the Romance of an Old Maid, A Dead Man's Rule, Little Feet, Friendships of Sisters. The publishers are still sending the December number free to all new subscribers for 1868. Great inducements in the way of Premiums, &c. Sample copies fifteen cents. Price (with engraving) $2.00 a year. Deacon & Peterson, 319 Walnut Street, Philadelphia.

Once a Month for January continues the publication of advertisements on alternate pages with the literary matter. Among other things this number contains New Year's Eve, What Lily saw in the Fire, Why Willie wants the Curtains up, Frozen Plants, The Cheapest Food, New England Industries, An Egyptian Hotel, The Hundred Pound Note, Home and its Surroundings, Employment for Women, &c. W. J. Holland, Springfield, Mass.

Fire at Westerly

A fire broke out in Ripley & Browning's building about midnight, Sunday, and soon communicated to the buildings each side of it, all of which were burned to the ground. Ripley & Browning's building included the Masonic Hall, and was occupied by Ripley & Browning, stove dealers, and by P. G. Keegan, grocer. Ripley & Browning saved a portion of their stoves and tin ware. Insured in New York, Hartford and Providence. P. G. Keegan saved a portion of his groceries. The upper story of the building has just been finished and furnished for the occupancy of Franklin Lodge No. 29, of Rhode Island, and Pawcatuck Lodge, No. 40, and Palmer Chapter No. 23, of the jurisdiction of Connecticut. Unfortunately, the three Masonic Lodges lose records, regalia, jewels and all their effects of every kind except the charter of Franklin Lodge, which was not in the building. Palmer Chapter and Pawcatuck Lodge were partially insured. Franklin Lodge had no insurance, not owning any of the furniture of the rooms, except the organ, their loss will not be over five or six hundred dollars. Lewis Brother's carriage factory, dwelling and stable were destroyed, partially insured.

H. F. Douglas had a small amount insured on hay and grain, in the stable. The dwelling house at the end of the bridge was occupied by Mrs. Parker Hall and Misses Westcott, dressmakers. They saved their furniture in a damaged condition. H. A. Brown, tailor, saved the most of his effects; his loss will be about $150; no insurance. B. F. Thompson, druggist, saved a portion of his stock; insured for $800 in a Hartford office. The House was owned by the heirs of Niles Brown, and was insured for $1,800, in Hartford. The entire loss will be about $20,000.

The buildings which were destroyed by fire were situated on the Stonington side of the village.

P. J. Keegan estimates his loss at $1,000 more than his insurance. Lewis Brothers estimate their loss at $2,500 above insurance. H. A. Brown, tailor, estimates his loss at $150. Ripley & Browning's loss will be nearly $1,500 more than insurance in building at Westerly.

THE WEST INDIES. An Havana special says the publication of the vote at St. Thomas was unofficial, as the authorities refused to give details on the subject. The Danish Consul at New York has telegraphed to the Captain of the Corvette Dagmar that Secretary Seward's reply was satisfactory, and that the President of the United States had sent the treaty to the Senate for ratification.

GENERAL ASSEMBLY.

JANUARY SESSION—AT PROVIDENCE.

TUESDAY, JAN. 21.

Senate.

The Senate met to day at 11 o'clock, being called to order by the Secretary of State. Twenty-two members answered to their names.

The report of the pilot commissioners was presented and ordered to be communicated to the House.

During the year, 41 first class and 10 second class pilots have been licensed. They are distributed as follows: 9 in Providence, 3 in Warren, 1 in Wickford, 1 in Pawtuxet, 2 in East Greenwich, 1 at the South Ferry, 5 in New Shoreham and 29 in Newport.

Three hundred and seventy-five vessels have received pilotage, for which $3,966 have been received, giving a commission of $237,30. The commissioners have also received for licenses $103 55, making a total of $340 91. The expenses have been for printing, &c., $85, leaving a balance of $255 91.

His Excellency the Governor took the chair, and said he had been detained by sickness in his family, and for a short time should not be able to preside daily. The Lieutenant Governor being sick, he suggested that it might be expedient to choose a President *pro tem.*

In accordance with suggestion, Hon. Samuel W. Church was chosen.

Mr. Stevens presented the bill of Edward C. Mauran for services, which was referred to the committee on finance.

Mr. Grosvenor presented the petition of Nicholas Timeston and others for an act to incorporate the German Evangelical Lutheran Congregation of St. Paul in Providence, which was referred to the committee on education.

Mr. Grosvenor moved that the Clerk furnish during the session to each member, two daily papers such as each shall select; the motion prevailed.

The Governor stated that since he made his last report on the collections from the United States, he had collected about $571,-330, leaving suspended accounts to the amount of $5,097.

A communication was read from the Principal of the Deaf and Dumb Asylum, proposing to exhibit pupils before the General Assembly on Tuesday next; the proposition was accepted and ordered to be communicated to the House.

Adjourned till 11 o'clock, to-morrow.

House of Representatives.

The House met at 10 1-2 o'clock, Mr. Speaker Van Zandt in the chair.

Mr. Sheffield of Newport, presented the petition of Bridget Kilroy, for change of name. Referred to the committee on the judiciary.

Mr. Barstow of Providence, presented the petition of the Rhode Island Hospital Trust Company, for amendment of charter. Referred to committee on corporations.

Mr. Aylesworth of Providence, presented the petition of Charles Smith, for remuneration for military services. Referred to the committee on finance.

Mr. Gardner of Providence, presented the petition of William Sprague, administrator, for leave to sell real estate. Referred to committee on the judiciary.

Mr. Spink of North Kingstown, presented the petition of the Wickford Fire Engine Co., for amendment of charter. Referred to the committee on corporations.

Also the petition of the same company for extension of limits. Referred to the same committee.

Also the petition of Daniel Ferry for reimbursement. Referred to the committee on finance.

Mr. Davis, of Newport, presented resolutions to pay bills for furnishing the clerk's office of the Court of Justices of the city of Newport. Referred to the committee on accounts.

Mr. Sheffield gave notice that parties having business pending before the judiciary committee must appear on or before Monday next, or the committee will then proceed to examine them *ex parte*: also that the committee will meet each day of the session, on the rising of the House.

Mr. Sheffield introduced the resolutions of which he gave notice yesterday, instructing the committee on Finance with reference to reversing the whole system of taxation. The resolutions instruct the committee to inquire into the expediency of making a new valuation of property; a new apportionment of the State tax; the taxation to the holders of shares in State and National Banks, and to the Banks of deposits in Savings Banks, and the taxation of the respective interest of mortgagor and mortgagee.

After a desultory discussion of the resolution by Messrs Sheffield, Barstow, Allen, Davis of Newport, Durfee and Davis of North Providence, it was adopted.

Mr Sheffield of Newport, gave notice that to-morrow or some subsequent day he should ask leave to introduce an act to enable aliens to take, hold and convey real estate.

Mr. Barstow, from the joint committee relative to the Cove Lands, reported that the committee had employed the services of Dr. E. M. Snow, Health Officer of the city of Providence, to prepare a report on the sanitary effect of filling up the Cove Basin, and asked leave to have five hundred copies printed. A resolution to that effect was adopted.

Adjourned.

Providence.

ARREST FOR SWINDLING.—The notorious Webb brothers, John and William, were arrested again to day on Chestnut House St. by Officer Oakes, and locked up. It seems that they have been doing considerable business in the way of swindling our citizens during the past six months, their most popular method being to engage board of certain parties, and after remaining as long as they could on credit, to decamp and commence business again under some other alias. They have both served out a sentence or two in the State Prison for theft, and one of them for breaking into a shop in New Bedford, was sent to the House of Correction there. They are the same pair who were in Newport some time ago representing themselves to be wounded soldiers, and asking aid from Newport citizens; also the same pair who went to Gov. Burnside with a subscription paper, as discharged soldiers, asking aid to set themselves up in business, one of them wishing to become an expressman, and the other a cobbler. The immediate cause of their present arrest was the swindling of one Myers, who keeps a boarding house, where they stopped until their bill amounted to some $31, and then left. Mrs. Myers happening to meet them on the street, today accused them of dishonesty, and a crowd gathering round, they were taken in custody. The Chief of Police desires all parties who have been swindled of late to call at the Central Station and identify the prisoners. It is to be hoped that such care will be taken of them this time that they will not again trouble honest citizens with their mean and dishonest traffic. *Journal* 21st.

The School Committee.

EDITOR DAILY NEWS.—I was much pleased with the suggestion yesterday that the school committee be elected by the people. If there is any department where the voice of the people should be heard, it is in the Government and management of the schools, and yet as matters are now conducted they practically have no voice at all. The committee is like a close corporation and their proceedings while in session are never given to the public. In all other cities as Providence, Fall River New Bedford &c., reports of each meeting as full as those of the city council, are always published as they should be here. Now that there is a proposition to amend the charter, let us by all means have a change in this respect, and our public schools popularized.

THE BAY.—The bay above Prudence is mostly covered with a thick coat of ice with a channel cut through by the steamboats of just about sufficient width for their use. Below that Island there is little or no ice whatever, though in the region of Fall River the passage is thoroughly blockaded. The Bradford Darlee made her trip yesterday having been sent in on Monday so that she did not leave her wharf.

SEALS.—A large number of these animals are now in the bay and more or less of them are seen almost every day upon the ice. Two black ones and two white ones were thus taking their comfort as the city of Newport passed the other day. They have probably come down here to enjoy our open winter.

THE STORM.—The storm which prevailed here yesterday, was very severe in Providence and further inland. The snow and sleet continued all day making it very uncomfortable out of doors and quite dreary within. We hear of no wrecks along the coast as yet, but it must have been a most uncomfortable time to those whose lot is cast upon the sea.

GEOGRAPHICAL.—The Boston *Journal* again speaks of Somerset as in Rhode Island. As it is a free town we have no objection to its annexation, but till then it would do no harm for the *Journal* to correct its Geography.

TEMPERANCE.—The Hon. Neal Dow, father of the Maine Law, and the apostle of Temperance, who has recently returned from a lecturing tour in England, will deliver an address in this city on Friday evening of this week.

Our thanks are tendered to the Hon Henry B. Anthony for a copy of the Directory of Congress, compiled by Ben. Perley Poore.

Letter from Providence.

JAN 21st, 1868.

DEAR NEWS:—An account of the meeting of the General Assembly and an account of the proceedings thus far has already appeared in your columns, but there may be some things of interest outside the regular routine which it is not out of place to notice. There was on Monday morning, quite unexpectedly to many, a quorum present in both houses: a thing which has occurred but once or twice before within the "memory of the oldest inhabitant" Neither was it a bare quorum! nearly all the seats were filled at the appointed hour for opening, so that there was no delay before proceeding to business.

It is well known that since the last session the State House has been remodeled and greatly improved in many respects. The accomodations, heretofore very poor, are now very excellent and the change gives unusual satisfaction. The House of representatives' chamber has been enlarged by taking away the partition on the north side and throwing the whole of the first story of the old part of the house into one room. The Speaker's seat has been changed from the south side to the east side of the chamber. The space within the railing about the clerk's desk has been very much enlarged affording accomodations that were greatly needed. The seats of the members are arranged in concentric arcs, so that all enjoy equal advantages of position. The Senate chamber has undergone no material alteration, except that the stairway at the north-east corner has been removed. It has been repainted and tinted in good style. In the Secretary of State's office, the ancient ceiling remains as it was, except that it has been painted and varnished anew. A large addition has also been built which affords room for the Supreme Court, the Sheriff and other officials.

In looking over the Assembly room the beholder can scarcely fail to come to the conclusion that the present body is made up in the main of men of the right stamp. There are but few professional politicians on the floor, the majority coming from the industrial classes, and sharing with their constituents the interests and feelings which they are appointed to serve. Quite a number of them have been in the house before, and are thoroughly familiar with the business of State legislation. The others who are new men, are of the stamp that adapt themselves to circumstances readily, and we shall be disappointed if some of these do not make their mark in the legislative annals of the State.

His Excellency, Governor Burnside, was not present at the opening and will not be able to attend regularly at present on account of sickness in his family. Lieutenant Governor Greene is also absent and expects to be detained more or less for the present. To meet the deficiency the Senate have called Hon. Mr. Church of Bristol, to the chair who will act as presiding officer in the absence of the Governor and his Lieutenant. Mr. Church may be called, hereafter, to a more permanent occupancy of this position for ought we can tell. It is certain that he would do credit to either place, and now that he is on the way, it is impossible to tell how soon the highest honor may be thrust upon him.

In the House, Hon. C. C. Van Zandt is thoroughly at home in the speaker's chair. It is doubtful if his equal can be found, as a presiding officer in the State, and under his guidance the Assembly can scarcely fail to enjoy a pleasant and profitable session.

The large attendance on the first day of the session, indicates the evident purpose of the members to attend to the business assigned them, and that too, in a business-like way. All the delegates from Newport, except Mr. White, were in their seats at the first call. Thus far the matters that have come up are mostly of a preliminary character. The work is now being laid out and the results will be reached in due time. More anon. DAN.

[FROM OUR OWN CORRESPONDENT.]

Letter from Ireland.

The Winter in Dublin—The Shelbourne Hotel—Americans—Fenian Movements—Delightful Weather, &c., &c.

DUBLIN, Jan. 6th, 1868.

EDITOR DAILY NEWS:—The winter carnival in this metropolis seems unusually gay and brilliant, and there is every indication of its continuing so through the winter months. The new Lord Mayor leads off in the way of fashionable movements for sports, pleasure and pastime, and thus far he has proved a decided favorite. His new equipage and train attracts unusual attention whenever it passes through the streets.—Really, it is one of the most gorgeous carriages that I ever beheld. Aside from the general routine of balls, hops, sociables, &c., which are so unusually indulged in by fashionable society, the numerous theatres offer unusual attractions. At the Theatre Royal the great London pantomime of Ali Baba has been drawing immense crowds of people. The piece has been splendidly put upon the stage, and this theatre, under the indefatigable management of Mr. John Harris, has become the most famous and fashionable place of amusement in Dublin.

It will doubtless be pleasing to Americans and others to know that this city is blessed with a splendid new first class hotel, which is called the Shelbourne. It is a magnificent new structure whose fittings, fixtures and furniture are second to none on the Continent, whilst its proprietors, Messrs. Perry, Collin and Goodman are all practical hotel men. They are gentlemen of acknowledged ability, and have already made this house the most fashionable and famous in the city. Indeed, the Shelbourne is the Fifth Avenue Hotel of Dublin, whilst its charges are very moderate. Many inferior houses here are more expensive than the Shelbourne. It is delightfully situated in the most central part of the city, opposite Stephen's Green. I make an especial note of these facts, knowing they will be so highly appreciated by your readers and others who make a visit to this old and interesting city.

The influx of Americans during the past four weeks has been unusually large for this time of the year. There are quite a large number of pretty girls and handsome women sojourning at the Shelbourne hotel, which makes it quite gay and brilliant.—This hotel is the headquarters for Americans, like the Fifth Avenue Hotel in New York. If you want to find out who is in town, go to the Shelbourne which is as unexceptionable as the most exacting society could demand.

The Fenian movements in Ireland are attracting little or no attention. It has become an old story, and, were it not for the petty outrages and annoyances which these deluded people occasionally commit, the Fenian sensation would be extinct. The Fenian project has been entirely abandoned by all intelligent people who satisfied themselves that there was not a possibility or probability of success. On the Emerald Isle there have been all sorts of rumors and reports about Fenian risings between here and Queenstown during the past week. No fears, however, were entertained of any thing of the kind, but, in order to quiet the fears of the people, bands of troops have been constantly moving, keeping a close watch on these wearers of the green.

The weather is mild and pleasant, the ground remaining free from frost.

Yours, &c., AURORA.

MILITARY NOMINATIONS.—The Senate military committee has acted upon and reported to the Senate about six hundred nominations sent in by the President since the beginning of the present session. They are mostly brevets and regular promotions, and nearly all are recommended for confirmation. The Senate will probably take action on many of them during the present week. The committee have not yet acted on any of the staff nominations or new appointments; they do not propose taking up the nominations for second lieutenants until an expression of Congress has been had upon Mr. Wilson's bill providing that for the purpose of instituting a gradual reduction in the military force, the appointment of second lieutenants shall be suspended until otherwise ordered.

THE SPANISH MISSION.—The President is trying to get Hon. John P. Hale out of the Spanish mission, and through the State Department he has been notified that his resignation will be accepted as soon as it is tendered. Some correspondence has been had with Mr. Hale, but it has not yet reached a conclusion satisfactory to the President. It is very well understood that the Senate will not consent to the removal of Mr. Hale, and hence the effort to drive him into resigning. To whom the President wishes to give the office is not known.

About three months since, Joseph Nolan of Syracuse, N. Y., found a small dog in his store and attempted to drive him out, when the animal snapped at him and scratched him slightly across the hand. The cur was killed and nothing more was thought of it until last week, when Mr. Nolan was suddenly taken ill, and after lingering a few days in terrible agony, he died on Sunday of hydrophobia.

The spirits have fooled the Connecticut treasure diggers, who didn't find the money where it was indicated. But they are sure it is somewhere in that vicinity, and hence continue to dig.

Dr. WISTAR'S BALSAM OF WILD CHERRY.

Where this article is known it is a work of supererogation to say one word in its favor, as well as it established as an unfailing remedy for Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, diseases of the throat, Chest, and Lungs, as well as that most dreaded of all diseases, Consumption, which high medical authority has pronounced to be a curable disease. Those who have used this remedy know its value; those who have not, have but to make a single trial to be satisfied that of all others it is the remedy.

A REMARKABLE CASE.

From Mr. John B. Darling, Watchmaker, Putnam, Connecticut.

"I have used Dr Wistar's Balsam of Wild Cherry in my family for several years, and always with the happiest beneficial results. My wife being of delicate habits, has always been troubled with a hard, dry, hacking cough whenever taking cold, and could obtain no relief from the various remedies she employed until she used Wistar's Balsam, the effect of which was astonishing. A year ago a young man in this place was taken with bleeding at the lungs, with a severe cough, and was given over to die by our best physicians, it being evident to all that his disease was Consumption. Upon hearing of his case my wife sent him a bottle of the Balsam, which he took, and soon, to the astonishment of his friends, he was at his accustomed occupation. In other cases we have administered the Balsam to the Consumptive, and always with the best of success. These statements are simple facts, which can be vouched for at any time by calling on me at my store."

None genuine unless signed "I. BUTTS" on the wrapper. Prepared by SETH W. FOWLE & SON, 18 Tremont St., Boston, and for sale by Druggists generally.

CHRONIC DISEASES, SCROFULA, ULCERS, &c.

It is well known that the benefits derived from drinking of the Congress, Saratoga, and other celebrated Springs is principally owing to the Iodine they contain.

Dr. Anders' Iodine Water

containing Iodine in the same pure state that it is found in these spring waters, but over 300 per cent more in quantity, contributes to it does 1-4 grains to each fluid ounce, dissolved in pure water, without a solvent, a discovery long sought for in this country and Europe, and is the best remedy in the world for Scrofula, Cancers, Salt Rheum, Ulcers, and all Chronic Diseases. Alpine Bitters.

THE ALPINE BITTERS, imported exclusively from Switzerland, is made from Roots and Herbs, harmless in themselves, but marvelous in their strengthening properties. Their recuperative qualities are unrivalled, and are especially efficacious in all cases of Female Debility, arising from any cause whatsoever; also for Dyspepsia, Indigestion, Headache, Nervousness, Loss of Appetite, and as a positive preventive of Chills and Fever.

The ALPINE BITTERS have a soothing and restoring influence upon the system, especially upon the digestive organs, and is highly recommended to ladies and young children in delicate health, and to all who are averse to taking wine, poisonous whiskeys and other stimulants.

The continually increasing demand for this universal popular Tonic, Stomachic Tonic and ANTI-DYSPEPTIC ELIXIR, has induced the undersigned to make such arrangements abroad as will enable them constantly to supply all orders with which they may hereafter be favored.

Can be obtained by all Druggists and other dealers.

HARDY'S Patent Axle Grease.

THIS GREASE for Carriages, Stages, Wagons, Carts, &c., is found to be superior to any lubricant heretofore discovered. It combines all the lubricities of oil, with the free gummy nature of tallow,—keeps the axle always cool and clean, and renders the draft without requiring fresh applications, double the time of any other grease known. A sample trial is sufficient to exhibit to the consumer a saving of at least 75 per cent.

PERMANENT CHARACTERISTICS.

I.—They are Instructive.

"As purely literary works, these historical romances possess a high degree of merit. They read like genuine histories."—*Catholic World.*

"They are correct descriptions of the countries and the people described."—*Herald.*

II.—They are Entertaining.

"We regard these books as among the best and most entertaining novels of the day." *Springfield Republican.*

"The reader is at once fascinated and held spellbound until the volume is completed."—*Free Press.*

"There is no dull chapter in it." *Union Herald.*

III. They are Mirrors of the Times.

"No one can peruse them without recording the author's great skill in grouping and delineating the characters whose name conspicuously in them.

"The study which enables the author to delineate so accurately the enormous and incentives to action which novelists and women of past ages must be close and nothing and Louisa Mühlbach shows in all of her works a perfection which carries the reader into the very presence of the characters represented."—*Syracuse Journal.*

IV.—They are Historically Correct.

"Historically correct, and so entertaining as many of the volumes of Sir Walter Scott."—*Pro. Herald.*

"Louisa Mühlbach must have carefully and diligently studied the sources and histories of the times and countries of which she writes, and her task is done well and effectively."—*Rochester Spy.*

"No Historical Novelist has labored so faithfully and successfully to reproduce a complete picture of past times and events."—*Utica Herald.*

V.—They are Original.

"It has agreeably surprised readers to find a new writer with such constructive genius and knowledge of character as Louisa Mühlbach possesses."—*Public Ledger.*

"Each succeeding novel adds to Mrs. Mühlbach's reputation as a writer of historic fiction."—*N. Y. Times.*

VI.—They are full of Imagination.

"She is not only the skillful joiner, but a master-handed artizan."—*Christian Witness.*

"There is seldom any startling effect, but it is really wonderful how Madame Mühlbach manages to sustain and increase the interest to the end."—*City Press.*

"The word-painting of the authoress is sometimes effective than the best efforts of the engraver."—*Illinois State Register.*

VII.—They Contain Anecdotes of Courts.

"Scottish history offers no fresher and more romantic material to the magic wand of Sir Walter Scott than she finds in the annals of the German courts."—*Evening Gazette.*

"They are not to be found anywhere in form in annals, quoted, such magnificent, such superb, such materials for romance, as are the Chronicles of the Prussian and Austrian courts of the 18th century. By their dress, their manners, their modes of thought, their language, they are almost as much separated from us as if they had lived one thousand years ago."—*Albany.*

VIII.—They tell about Emperors, Kings, and Queens.

"We learn from her not only how Frederick William and Frederick the Great, Joseph the Second, Voltaire, Rousseau, Baron Trenck, the Empress Catherine, walked and talked in their stately form, but how they powdered their hair, drank and took tea."—*Leader.*

"The choice of her subjects is exhibits her genius.—She takes the time of Frederick the Great, Joseph the Second, for example, and upon the background of facts which the chronicles of the periods afford, she embroiders the bright and sombre colors, the light and shade of her fiction, with the skill of a consummate artist."—*The Eagle.*

IX.—The Style is Interesting.

"The style of this writer for purity, perspicuity, and elegance, is something greatly to be commended. It is free from imitations, pretentiousness, and tricks of every kind."—*The Argus.*

"The translations do justice to the vivid, pigment style of the original; and the story is full of romantic and crowded with incidents, exciting and interesting, fordient."—*The Chicago Post.*

"The interest of the book does not depend upon its characters nor its incidents, nor yet on its charming style, but in its general harmony of composition."—*Day Book.*

X.—Everybody is Reading them.

"Our people seem to have stopped reading French novels, and English works are complained of as dull. Miss Mühlbach perfectly supplies the public want.

"The novels of Clara Mondt are being read by everyone."—*Times.*

"Mühlbach's novels have a world-wide reputation, and are read with avidity, as fast as issued from the press."—*Springfield Republican.*

"They are winning a well and deserved popularity in this country."—*State Journal.*

Arrest of George Francis Train.

LONDON, Jan. 21.—The following particulars of the arrest of Geo. Francis Train have been received here from Queenstown

During the transit of the tender which contained the baggage and passengers of the Scotia, from the steamer to the wharf, the baggage of Mr. Train, as well as that of Thomas C. Durant of New York, who was also a passenger, was subject to the most rigorous examination by the customs officers.

Nothing of an incendiary or seditious character being found in the trunks of either of these gentlemen, they were both accordingly permitted to go ashore. As they stepped from the tender to the shore they were arrested and taken before a Justice of the Peace in that city. The examination eliciting nothing against the prisoners to warrant their detention, they were discharged.

Soon after their arrival at their hotel, they were re-arrested. Upon the completion of the second examination, Mr. Durant was discharged. The authorities, however, detained Mr. Train, and he was sent in custody to the Cork jail.

On Saturday he was brought before the Court and examined, but remanded until Monday, the 27th inst. In the meantime the case is creating considerable excitement. The newspapers are reporting the characteristic speeches and letters of Mr. Train as a sort of justification for his arrest.

LONDON, January 21, evening.

Mr. Train was discharged from arrest at Cork this morning. He has sent the following dispatch by Atlantic Cable to his friends in America: "I have just been released on the intervention of Mr. Adams. I have brought suit against the British government for one hundred thousand pounds damages. GEORGE FRANCIS TRAIN."

SOUTHERN NEWS.

RICHMOND, January 20.

Gen. Grant and lady arrived this afternoon, and are stopping with Postmaster Sharp, Grant's brother in law.

Among other trustees of the Peabody fund who have arrived, are ex-Governor Fish and Samuel Wetmore of New York, Wm. A. Graham of North Carolina, John H. Clifford of Massachusetts, Geo. W. Riggs of Washington, and William C. Rives of Virginia. Gov. Aiken of South Carolina is expected to arrive to-morrow in time for the meeting of the trustees at the Spottswood Hotel.

MEMPHIS, January 20.

Two men attempted to enter the house of Capt. Wild, a freedman, Saturday night. Wild fired upon them, and an old beggar was found dead outside next morning.

A man named M. Connell was shot dead in Main street on Saturday night. The assailants have been arrested.

Gov. Brown now has issued a proclamation declaring null and void all registration in Shelby county.

Washington Evening News

—o—

A Washington special says the resolution fixing the salary of Congressmen at five thousand dollars and ten cents mileage will save three hundred thousand dollars per annum.

Gen. Logan will endeavor to introduce a bill equalizing the appointment of clerks among the States. A statement shows that among the Government clerks employed there are from Maine 117, Massachusetts 104, Vermont 57, New Hampshire 85, Rhode Island 15, Connecticut 79, New York 187.

Judge Chase is ill.

Mr. Stanton will not recognize the President until the latter officially recognizes him.

The House Election Committee will report three resolutions. First, declaring Brown disqualified on account of disloyal acts and encouragement given to rebels; second, declaring Smith not entitled to the seat; third, that the Speaker of the House notify the Governor of Kentucky that there is a vacancy in the Second Congressional district of that State.

It is understood the House Ways and Means Committee are nearly unanimous in favor of making the Internal Revenue Department an Independent Bureau. The reduction of the whisky tax will not be considered by the committee until they determine upon what articles are to be relieved from taxation.

Senator Henderson has introduced to-day an important financial bill, which, if passed, will substitute free banking for National Banks, and will reduce the rate of interest to four per cent.

The Supplemental Reconstruction bill passed the House this afternoon by a party vote, without amendment, and of course as originally reported. Gen. Butler's proposition to give the State Conventions now in session the power to appoint State officers was disagreed to.

The Supreme Court to-day decided to grant the motion to advance in the docket the hearing of the McArdle case, which involves the question of the constitutionality of the Reconstruction laws. The first Monday in March was set for the hearing.

SECURE A POLICY

—IN THE—

NORTH AMERICA LIFE INS. CO.,

I. Because it gives more Liberal Policies than any other Company. They are Unassailable and Incontestable. It Issues **Policies of Insurance** in the Northern States, with a Home-office in Boston, and Home-office in Philadelphia. It makes no charge on account of occupation, for **TRAVEL or RESIDENCE, at any season of the year,** in the United States or Europe.

WITHOUT WORKING WITH THE POLICY.

It allows thirty days grace, on renewal payments and grants *weekly compensation* to those injured by public travel.

II. It is Most Secure.

It makes special deposits in the Insurance Department of the State of New York, for which it is the only Company the payment of its Policies, in case the Company should at any time fail to meet its obligations. No other Company gives the second risk, strictly, or any thing equivalent thereto. **That is Best which is Most Secure.**

III. It is most economical. Its ratio of claims and expenses, last year, was less than that of any other Company in the United States, which had been in operation a full year. This leaving in the hands of the Policy Holders the largest proportional sum for dividends.

Watches for the Million !

ARMANDALE & CO'S GREAT WATCH CLUB.

Everybody could need a watch, and wishes to have it at the lowest possible price. On a trade of such Pure knowing this, I have contrived a plan to accommodate the close to get people money, and then rather fall to sell a watch, or need one that is worthless as a time keeper. ARMANDALE & CO. have now perfected a arrangement by which, for the small sum of $10, a good and reliable watch may be certainly obtained. They have formed a GREAT WATCH CLUB on a novel plan. Contributors to making the number of all the watches named in our wholesale list (which is sent to all applicants) are placed up, enclosed in envelopes, and sold for 25 cents each. Every watch is warranted to be for a watch, and as will be seen on reference to the list, some are of less value than Ten Dollars, while others are worth $200. We stand to send any watch drawn whatever may be its value for $10, and in order that every one may absolutely depend on getting a first class time-keeper, we guarantee that every purchaser of Ten Dollars worth of tickets shall receive at least one watch. No. 241 on our wholesale list, next page, which is a superior gentleman's lever, a handsome watch, the equal of any selling elsewhere at $60, and usually sold for $40. You will certainly get such a watch, and, for $10, you may get a Gold Chronometer worth $100. No other tickets are allowed. One for Five dollars, Three for $10, Twenty-six for $40, and Thirty for $50. To Clubs of Thirty $1, we will send a handsome watch free. To those of Twenty $3 we will send a Gold Chronometer. In no case will tickets be issued to Clubs large enough to cost more than the value of the watch. Parties taking up larger clubs will receive liberal premiums, of which we can be furnished on application. It is our intention to do a strictly honorable business, and to make our customers from Reliability to be, we will send to any address. If dissatisfied, without any, return the Watch agent to us, let it be lost and delay. If we are desired to forward watches by mail, the money must be sent to us by Bank Draft or Post Office Order, and it will then be at our risk. We will also register the package at our post office, and will produce it free of charge. If any watches are in demand, it may be returned at the price we have established. The reputation of our firm, which has been established for Half a Century, and is well known to every part of the country, we trust will be a sufficient guarantee that we will faithfully perform all we promise to do.

$500 WILL BE CONTESTED BY DR. L. DIX if failing to cure the Sick than any other Physician, more effectually and permanently, with less restraint from occupation or fear of exposure than all others, with 25 and thousand testimonials.

BOTH SEXES, SINGLE OR MARRIED.

DR. L. DIX'S
PRIVATE MEDICAL OFFICE,
No. 24 Endicott Street, Boston, Mass.

is arranged that patients never see or hear each other. Decided the only entrance to his Office is No. 24, leading directly from with his residence, especially so family introduction, so that on no account can any person be admitted except at his office.

DR. DIX
feel by a certain inability cause to be contracted, except by Quacks, who will do anything, even polluting their lives, to get money from patients that he
is the only regular graduate physician advertising in Boston.

SIXTEEN YEARS
engaged in treatment of Special Diseases, a fact so well known to many Citizens, Publishers, Merchants, Hotel Proprietors, &c., that he forbears commendation, not particularly to
Strangers and Travelers.

To avoid exposure to Impostors of Foreign and Native Quackery, we are necessary in Boston than other large cities.

DR. L. DIX
possibly refers to Professors and respectable Physicians, many of whom consult him in critical cases, his extensive knowledge, skill and reputation, as well as their high opinion, practitioners and observations.

AFFLICTED AND UNFORTUNATE!
being called upon to perform cures in long standing cases by the people, and to our personal attention, take precedence and protections of

FOREIGN AND NATIVE QUACKS,
who know little of the nature and character of Special Diseases, and are so to their cure. Some exhibit forged Diplomas of Institutions or colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how or when, unknown; not only assuming and practising in names of those deceased in the Dead, but to further their imposition assume the name of the most celebrated Physicians living or dead. Notice to deceived by

QUACK NOSTRUM MAKERS,
through false certificates and testimonials, and conversations of their medicines by mail or express, who cannot expose or contradict them; or who, to sales, to further their business, copy from Medical books, much that is written of the qualities and diseases of different herbs and plants, and a pile all the same to their Pills, Potions, Specifics, &c., most of which, if not all, contain Mercury, Opium or other ancient and dangerous drugs, but now known to kill more than it cures, and those not killed, constitutionally ruin the
IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS.

Through the firm use of the Quack Doctor, knowing no other remedy, he relies upon Mercury, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, in his professional addition to his so-called Specific, Anti-Venereal, &c., basically depends upon its effects in curing a few in a hundred, it is transported in various ways throughout the land; but, as we said, nothing is said of the failures; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, and regardless of the life and health of others, there are those among them who will prate themselves, contradicting giving money to their patients so that it is contained in their Nostrums, so that the "good for" may be claimed for positively curing, or "the dollar" or satisfaction of money be obtained for the Nostrum. It is thus that many are deceived also, and needlessly spend large sums for worthless nostrums.

DR. L. DIX'S
charges are very moderate. Consultations secretly by mail, $1; and all may rely on him with the strictest secrecy as to health, age, whatever may be the disease, condition or situation of any case, married or single.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases, peculiar to females, it is now conceded by all (both in this country and in Europe) that he excels all other Physicians in the safe, speedy and effectual treatment of all such complaints.

His medicines are prepared with the expressed purpose of removing such diseases, such as debility, weakness, functional irregularities, enlargements of the womb, also all obstructions which flow from any cause of the blood. Oxygenized Air,

A CURE FOR

CATARRH

AND DISEASES OF THE THROAT AND LUNGS,

Applied by

DR. C. L. BLOOD,

No. 9 Montgomery Place,

BOSTON, MASS.

CHRONIC CATARRH.

Why tolerate this loathsome disease when relief can be obtained? We meet those every day who are suffering from Catarrh to such an extent, that the Air Passages in the head are in a partly decomposed condition,—the nose and throat filled with such a mass of corrupt matter that they are objects of disgust to themselves, and pity to those with whom they associate.

Chronic Catarrh usually affects the head, fauces and bronchial tubes. It is invariably caused by humoral or inflammatory blood, by which the mucous membrane is made sore or inflamed, producing a copious effusion of viscid matter. If it be produced by Scrofula in the Blood it is almost certain to end in Consumption, unless speedily cured, because it is impossible to entirely prevent the matter from running down the Bronchial tube into the air vesicles, and such is the excoriating, or scalding property of the matter, the contact with the delicate linings of the air-cells at once causes irritation, and invites the humoral properties of the blood to deposit therein Tubercles and Ulcers.

Catarrh almost always attends Consumption, and frequently leads to it.

In Oxygenized Air we have a positive cure for this disease. The remedy is taken by inhalation—breathed directly into the lungs, and through them carried into the blood; thus as soon as the blood will carry it, it reaches all parts of the system, decomposing the impure matter in the blood and expelling it through the pores, and through the natural channels from the system. Thus you will see that the cause of the disease is removed, and the disease itself must follow.

In this same manner we treat and radically cure Bronchitis and Consumption. Let no one suffering from these diseases despair of relief. If you are too far away to visit our office and see us personally, write a description of your symptoms, and forward to the address below.

Send for our circular, which gives a full description of these diseases.

Out of the many thousands of testimonials received we publish the following:

DR. C. L. BLOOD,—

DEAR SIR:—I desire to give you my testimony in regard to the value of your scientific system of treating Catarrh and diseases of the Respiratory organs. I have used your remedy, "Oxygenized Air," in my practice for the last year with complete success. I have cured the worst forms of Catarrh, and a majority of the cases of Bronchitis and Consumption in their advanced stages. I unqualifiedly pronounce "Oxygenized Air" the greatest boon ever yet conferred upon our suffering race, and hope the day is not far distant when every intelligent physician will adopt your system in the treatment of all forms of chronic affections.

Fraternally yours,

L. M. LEE, M. D.
No. 129 Westminster Street, Providence.

DR. C. L. BLOOD,—

MY DEAR SIR:—I have tested your remedy, "Oxygenized Air" in advanced stages of Catarrh, Bronchitis and Consumption, and the results have been, in the highest sense, satisfactory; so positive am I of its wonderful power to arrest the progress of the above named diseases, that I can conscientiously advise all who may be suffering from them to place themselves under the treatment at once.

Respectfully yours,

DR. R. TOMLINSON.

A Library of Universal Information.

THE NEW

American Cyclopædia :

A POPULAR DICTIONARY OF GENERAL KNOWLEDGE.

EDITED BY

GEORGE RIPLEY AND CHARLES A. DANA

AIDED BY A NUMEROUS SELECT CORPS OF WRITERS, IN ALL BRANCHES OF SCIENCE, ART, AND LITERATURE.

In 16 large volumes, 8vo.

750 double-column pages in each volume.

The leading claims to public consideration which the New American Cyclopædia possesses may be thus briefly stated:

"1. It surpasses all other works in the fulness and ability of the articles relating to the United States.

"2. No other work contains so many reliable biographies of the leading men of this and other nations. In this respect it is far superior even to the more bulky Encyclopædia Britannica.

"3. The best minds in this country have been employed in enriching its pages with the latest date, and the most recent discoveries in every branch of manufactures, mechanics, and general science.

"4. It is a library in itself, where every topic is treated, and where information can be gleaned which will enable a student, if he is so disposed, to consult other authorities, thus affording him an invaluable key to knowledge.

"5. It is neatly printed, with readable type, on good paper, and contains a most copious index.

"6. It is the only work which gives any thing approaching correct descriptions of cities and towns of America, or embraces reliable statistics showing the wonderful growth of all sections."

Every one that reads, every one that mingles in society, is constantly meeting with allusions to subjects on which he feels and desires further information.—In conversation, in trade, in professional life, on the farm, in the family, practical questions are continually arising, which no man, will read or not, can always satisfactorily answer. If facilities for reference are at hand, they are consulted, and not only is the curiosity gratified, and the stock of knowledge increased, but perhaps information is gained and ideas suggested that will directly contribute to the business success of the party concerned.

A Cyclopædia is preeminently the work for our country and generation. This is the age of steam. No one has time to grope among a hundred different works for every little fact required, without the certainty of finding it at last. With a Cyclopædia, embracing every conceivable subject, and having its topics alphabetically arranged, not a moment is lost. The matter in question is found at once, digested, condensed, stripped of all that is irrelevant and unnecessary, and verified by a comparison of the best authorities. Moreover, while only men of fortune can collect a library complete in all the departments of knowledge, a Cyclopædia, worth in itself for purposes of reference at least a thousand volumes, is within the reach of all,—the clerk, the merchant, the professional man the farmer, the mechanic. In a country like ours, where the humblest may be called to responsible positions requiring intelligence and general information, the value of such a work cannot be overestimated.

Registering all the Important Events of Each Year—Valuable as a Work of Reference.

"It is an enterprise of immense value to the public, and ought to be in every library, public and private, as an invaluable book of reference."

Albany and Argus, Albany, N. Y.

"We can confidently and conscientiously recommend Cyclopædia to all who would have an accurate and reliable history of contemporary events close at hand and as a safe work of reference."

Evening Traveller.

"It is indeed a most excellent work. It is thorough and reliable, and just such a work as is greatly needed, a faithful chronicler of important events, too numerous to be remembered, and of too much account to be lost."—*Cleveland Daily Plain Dealer.*
